

Individually Sponsored Residential Projects (ISRPs)

Through the Individually Sponsored Residential Projects (ISRP) process, faculty may design custom off-campus projects in addition to the established options available at WPI Project Centers. ISRPs are subject to an approval process through the DIGS that includes routine planning and risk management protocols employed for the Global Projects Program.

Consult the Global Portal at <https://www.wpi.edu/+globalportal> for ISRP Process Deadlines. Please contact DIGS at global@wpi.edu with any questions about the ISRP process.
